

# 13° Women in rebirth 2024

9<sup>th</sup> March - 18<sup>th</sup> March 2024 Expo Fiera Milano

As every year, PASEP ART OUT Unconventional Gallery wants to pay tribute to the **women who over the centuries had to fight to overcome discrimination and violence**, with the international competition **Women in Rebirth**, now in its 13th edition. The competition features all those women who have struggled to overcome the adversities to which life has subjected them. In history there are numerous iconic figures, symbols of a femininity that has used art, poetry, sport, religion to resist and rebel against demeaning cultural models that wanted them crazy, alien, different.

The works in the competition will have the strength to **tell about women and their tenacity in evading definitions**, in escaping a world that perhaps too easily labels as "different" those who do not fit a stereotyped role.

**Women who don't fit into the roles that society has imposed on them** over the decades. Women who have told, through their life experience, how inner strength can be a means to express voices and uncomfortable sensitivities, that too often are suffocated.

Today more than ever it is important and worthy to remember the examples and the message that these women have left us. A beautiful message of independence, emancipation and love life and neighbour. A cry against violence, against the discrimination imposed by a cultural model based on prejudices.

Born from the aim of enhancing the creativity of emerging artists, this twelfth edition will give all participants the opportunity to enter the world of art.
